The Director of Central Intelligence

Intelligence Research and Development Council

IR&DC 87-0007
6 February 1987

MEMORANDUM FOR: Acting Director of Central Intelligence

FROM: Donald C. Latham
Chairman

SUBJECT: NFIP Budget Line Item

1. At a recent Council meeting concerning technology initiatives which are being directed towards Technical Security and Countermeasures (TSCM), it became apparent to the Council that at present there is no single line item within the NFIP budget which draws together the resources that are being allocated to these efforts. This lack of a resource focal point will probably encourage the Congressional committees to micromanage these efforts within disparate deliberations.

2. Therefore, I recommend that consideration be given to the establishment of a single line item for TSCM within the NFIP budget (perhaps non-add). This will permit focused deliberations, both within our budget build and for presentation to the Congress. (S)
